GRANDE CONCRETE

odin tiles + coverings

OVERVIEW

With soft shades on the surface, 6 colours and irregular patterns with industrial flavour, **GRANDE CONCRETE** evokes the expressive power of concrete in a gentle interpretation. In the 6mm thick 1600x3200 and 1200x1200mm formats, the concrete look acquires character and versatility, lending itself to the most varied style and design requirements. Importantly, these impressive porcelain panels can be utilised for commercial and residential applications. The non-slip surface finish makes this a practical and perfect solution for public flooring areas and domestic projects alike.
