odin tiles + coverings

## OVERVIEW

The mineral charm of metal in three interpretations with a striking iridescent surface, emphasized by large stoneware slabs that offer even more seamless design possibilities. The neutral colours allow for numerous floor and wall combinations, making **GRANDE METAL** ideal for commercial and residential applications. This metal replica importantly has the ability to be mixed and matched with the remaining GRANDE collection. Importantly, and unlike other equivalents, this material requires minimal maintenance and will last the test of time through extreme weather conditions and exposure to nature's elements.
